

Each year, 1.9 million people are diagnosed with diabetes. Some of them will be your patients.

The American Diabetes Association ***Living With Type 2 Diabetes*** program is here to help. There are two parts to this program.

1. Order free copies of the *Where do I Begin?* booklet to give to your patients at diagnosis at diabetes.org/atdx.

The *Where Do I Begin?* booklet, available in English and Bilingual Spanish, provides patients with the information they need to know on day 1 of diagnosis.

2. Encourage your patients to enroll in the Association's *Living With Type 2 Diabetes* program.

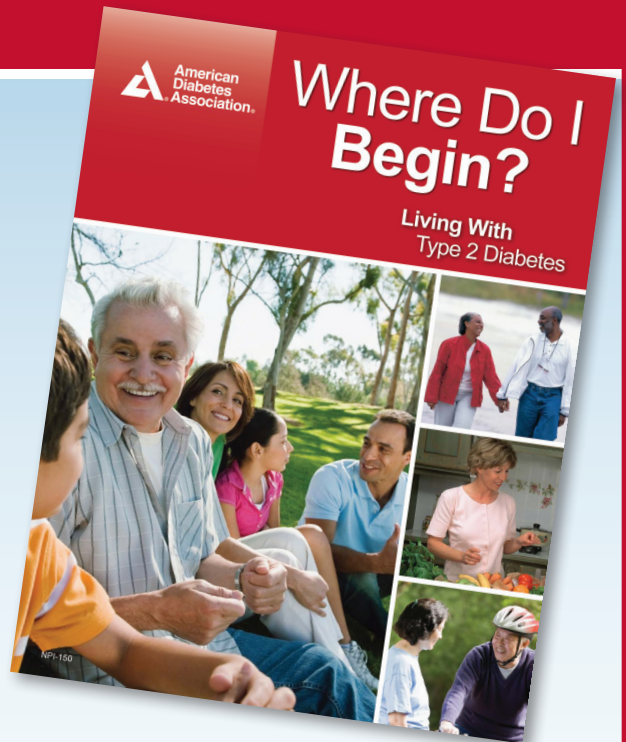

This free, 12-month program, available in English or Spanish, offers patients the information and support they need to start their journey with diabetes.

Enrollees receive five informational packets throughout the year, a monthly e-newsletter and invitations to meet others through local Association activities as well as through the online community.

Enrollment

Patients can enroll in one of three ways.

- Online at diabetes.org/living
- By calling 1-800-DIABETES (1-800-342-2383)
- Returning a completed Business Reply Card found in the *Where Do I Begin?* booklet.

Give your patients an opportunity to stop the deadly consequences of diabetes.

Order FREE copies of *Where Do I Begin?* today at diabetes.org/atdx.
